

OUR ENVIRONMENT POLICY

William Dyer Electrical UK Limited recognise the importance of environmental protection and is committed to operating its business responsibly and in compliance with all environmental regulations, legislation and approved codes of practice relating to the electrical industry.

It is our objective to operate with and to maintain good relations with all regulatory bodies.

It is the declared policy of William Dyer Electrical UK Limited to carry out all measures reasonably practicable, to meet, exceed or develop all necessary or desirable requirements and to continually improve environmental performance through implementation of the following:

Assessment and regular re-assessment of the environmental effects of the Organisation's activities;

Assessment and regular re-assessment of the Organisation's environmental objects and targets;

Training of all employees and management in Environmental Issues;

Minimisation of the production of waste;

Minimisation of material wastage;

Promotion of the use of recyclable and renewable materials;

Reduction and/or limitation of the production of pollutants to water, land and air;

Control of noise emissions from operations;

Minimisation of the risk to the general public and employees from operations and activities undertaken by the Organisation;

Comply with applicable legal requirements and other requirements;

To prevent pollution;

To continually improve;

This policy is communicated to all employees, suppliers and sub contractors and is made available to the public
